## SMART LINEN RFID TRACKING

### ASSET TRACKING SYSTEM

A system that track Physical Asset or Goods of a Company by using Tag (can be Barcode or RFID) to know where is at, how many times it was used (for semi durable goods), as well theft prevention.

### BACKGROUND

High Cost of Lost for Towel & Linen

Difficult & Time Consuming to Count & Check

Unreliable Measurement of Durability

Unreliable Evaluation of Supplier

Employee to cover of Loss & Breakage

# RECOM ASSET TRACKING FEATURES

Cloud Based System  
with Offline Capability

Washable RFID  
Tag

Automation  
for Counting

Real Time Physical  
Tracking

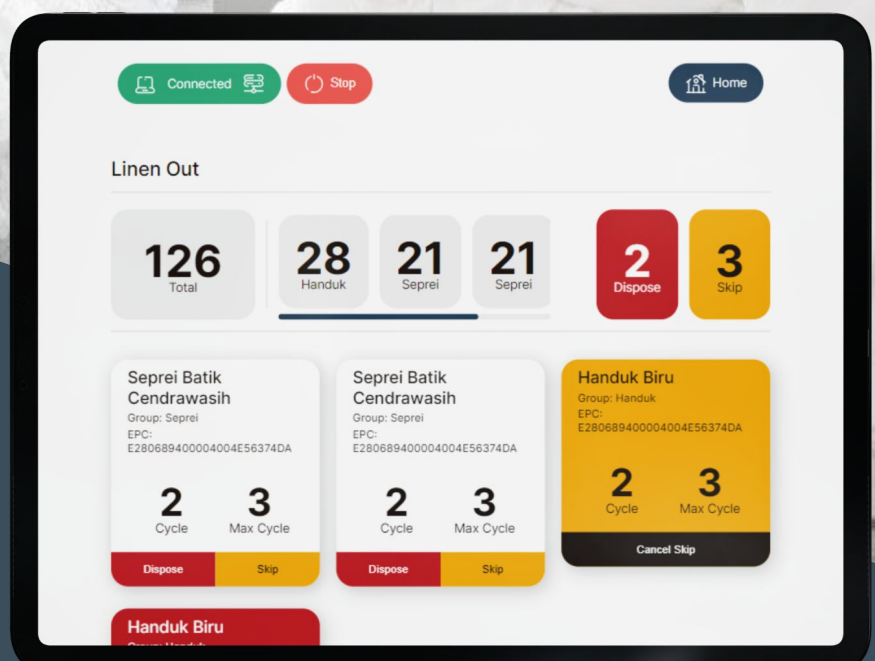

Theft Prevention

Detail Information  
per Unit

Value with Loss &  
Breakage Information

# BENEFITS

**Minimize Cost of Losses**

**Time Efficiency by Faster & Reliable Counting**

**Washing Cycle Data per Unit**

**Objective Evaluation for Supplier**

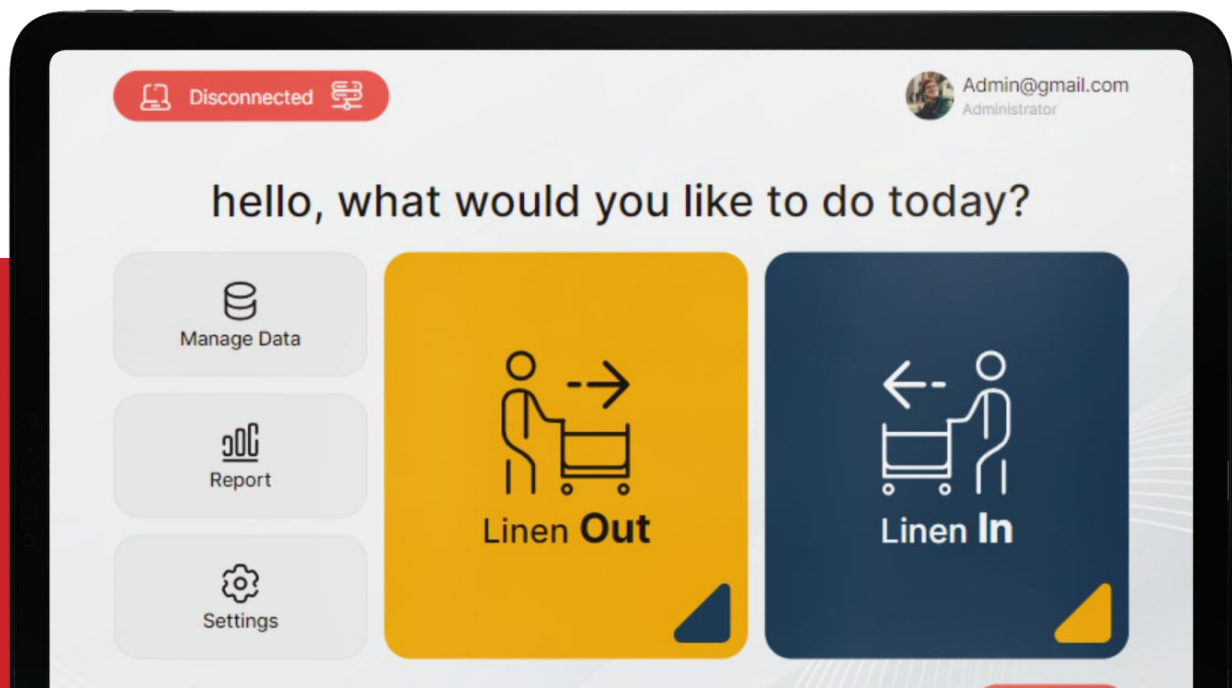

**Higher Service Charge**

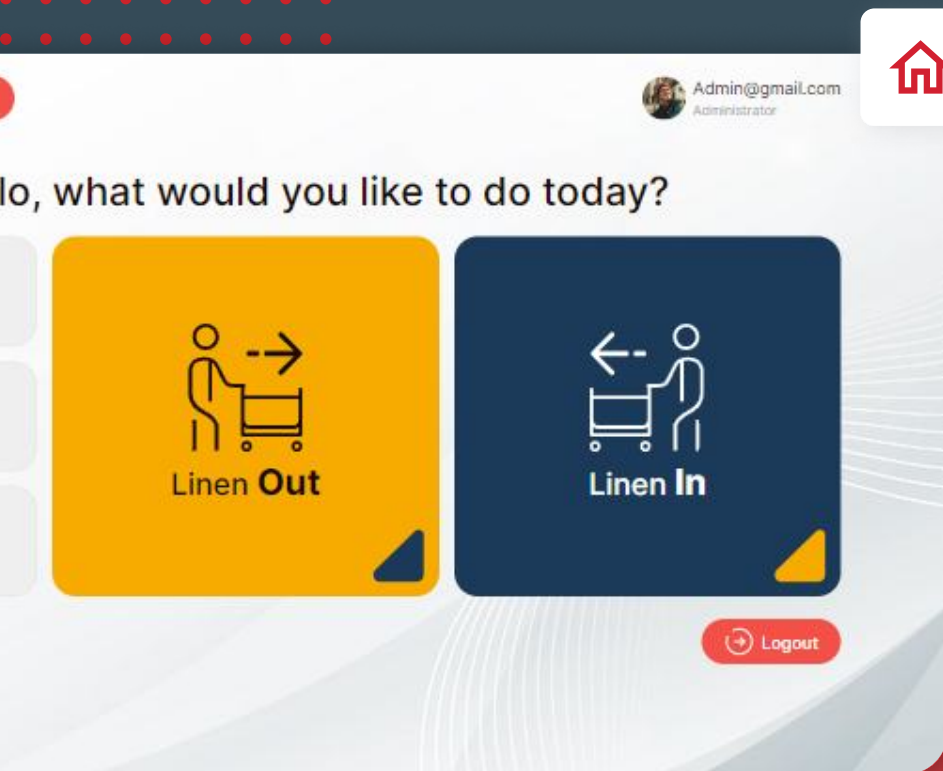

**Real Time Tracking**

**Better Decision Making Process**

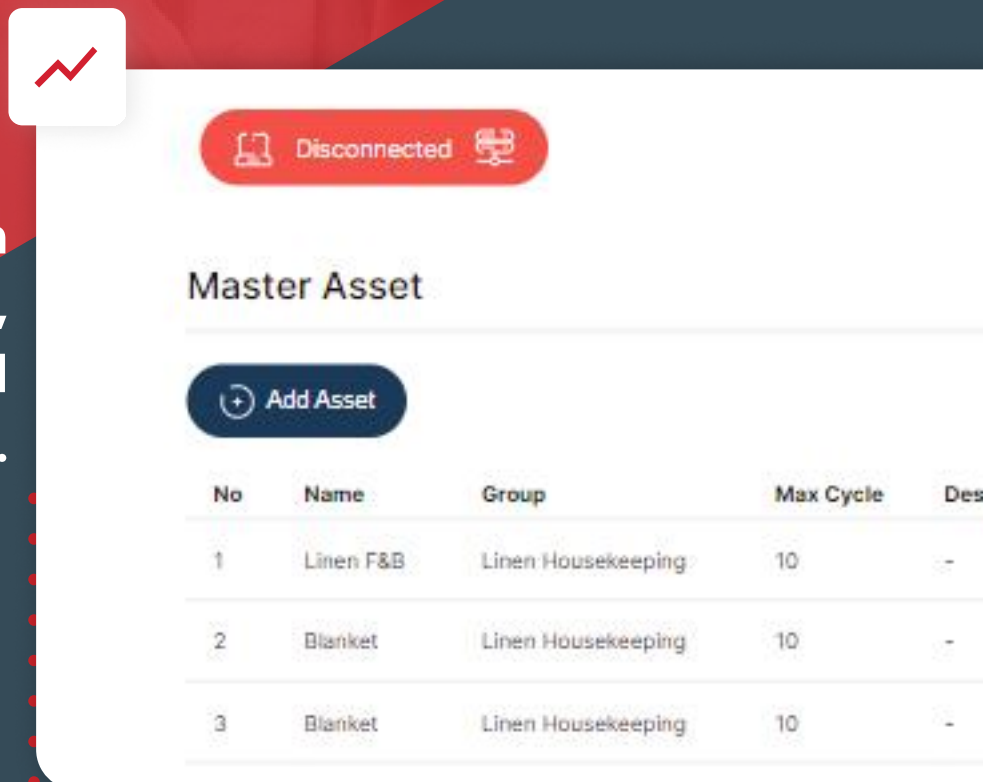

# KEY FEATURES

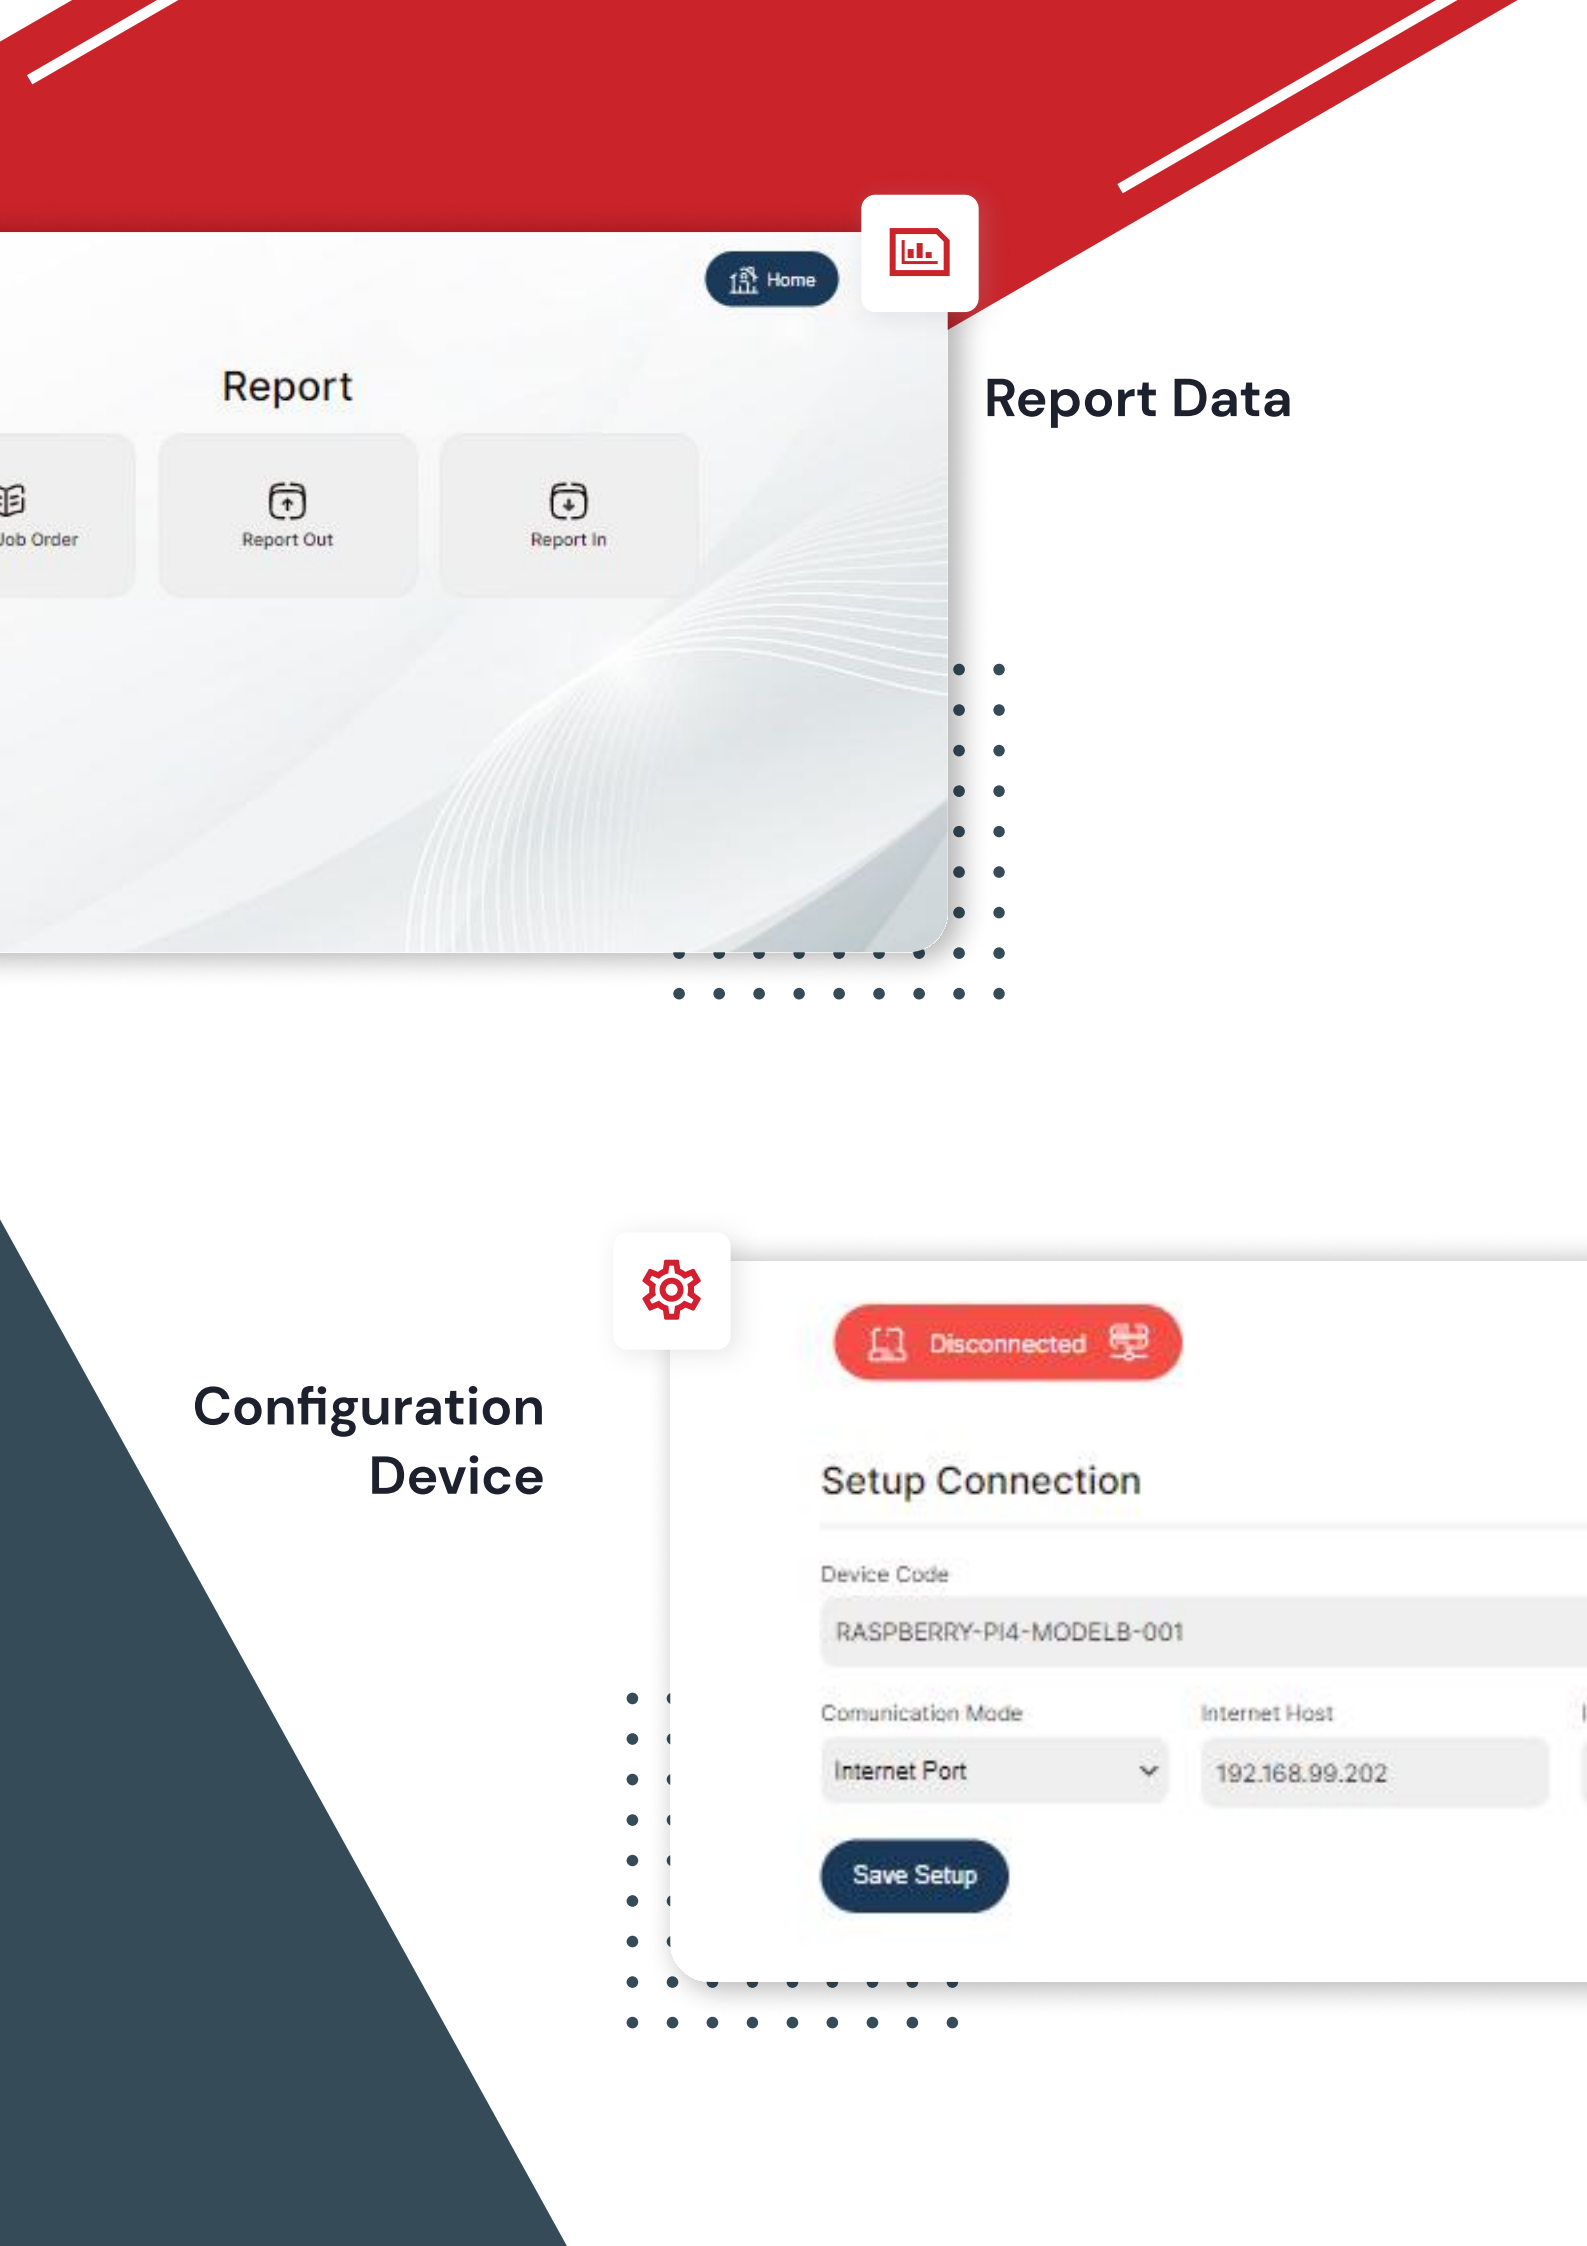

## Linen OUT & Linen IN

Manage data such as Master Group, Master Asset and Master Item.
